Commercial Washrooms

We believe well designed washrooms should be available to everyone.

Bushboard have been developing cubicle and washroom systems for over 80 years and our reputation has been built on delivering high quality products at affordable prices.

Our iconic Paralane and Aero ranges have been specified time and time again and now we introduce our latest designs; sleeker styling, stunning new finishes, Real Wood Veneers and our own unique Stainless Steel hardware collection.

Executive washrooms without the executive price tag.

Our design team continually strive to ensure our washrooms deliver the perfect balance of quality and value and our latest products are no exception.

That's because the range has been specifically developed to combine the very best in design with tried and trusted materials and a high degree of flexibility. Mix four material options, three height options, over 50 exciting panel colourways and 5 striking finishes to create a washroom that works with your budget.

We have shown Paralane Full Height Cubicles

- Pilasters and Headrail:** Aluminium in Platinum finish

- Panels:** 18mm MDF faced both sides with Crown Cut American Black Walnut Veneer. Panels edged in matching 3mm lipping

- Hardware:** Stainless Steel Faceplate

- Foot:** 20mm Stainless Steel Pedestal Foot

- Vanity:** Solid Surface in Drift

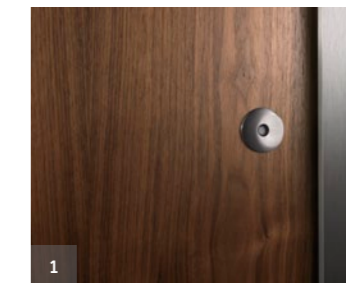

Paralane

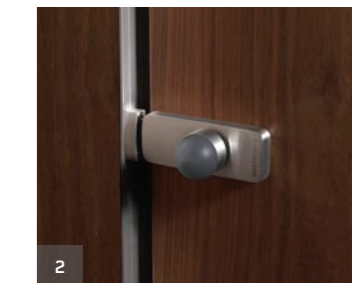

Simple, sleek and modern. Paralane's beautifully crafted streamlined pilasters and headrail bring you a truly contemporary washroom system that is solid, strong and ultra stylish.

Paralane Platinum

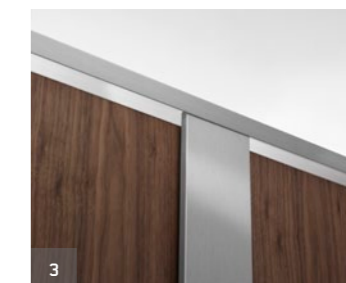

Choose our Platinum finish and see Paralane's impressive styling brought to life. The crisp, clean extruded aluminium pilasters and headrail in elegant Brushed Stainless Steel effect bring you the optimum in washroom cubicles.

Washrooms have never looked so good with our stylish Powder Coat finishes; Alpine, Titanium and Mineral.

All three colourways are available on both our Paraline and Aero Ranges and are highly durable, easy to keep clean and elegant.

Add Stainless Steel hardware to create a striking look or for design simplicity itself opt for complementary Powder Coated hardware.

Finish your cubicle design by visiting us at www.bushboard-washrooms.co.uk to view our exciting palette of panel colours.

Choose your washroom in three simple steps:

→ Choose your range:

Paraline

Aero

→ Choose your finish:

Alpine

Titanium

Mineral

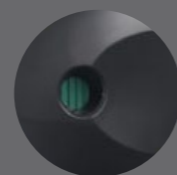

→ Choose your hardware:

Stainless Steel

Titanium

Mineral

Create a visually stunning washroom by combining fresh Alpine Powder Coat with elegant Stainless Steel hardware then select from our exciting range of laminate colours or rich wood veneer.

For the height of sophistication choose full height cubicles and low 20mm floor clearance.

Vanities

Whether you are designing a highly luxurious washroom or are looking for understated simplicity, our contemporary range of vanity units are smart, clean and practical.

Choose from Countertop, Semi Recessed and Cantilever Options or luxurious Solid Surface washtrough.

Choose to have your vanity units pre-plumbed and select from our exceptional range of sanitaryware and brassware.

For more information on our vanity specifications visit www.bushboard-washrooms.co.uk

- 1 Solid Surface Cantilever Vanity in Drift
- 2 Solid Surface Washtrough in Elysian
- 3 Countertop Vanity in Pampas and Arctic
- 4 Semi Recessed Vanity in Lime

Ducting

Ducting adds a co-ordinated finishing touch to any washroom and we deliver in three ways: Panel only, Ezeeduct or Pre-Plumbed (RPM).

With panel only we supply panels loose to work with your own timber framing. Choose Ezeeduct and we supply panels attached to our rigid aluminium framing system for fast installation. Opt for RPM and receive our rigid aluminium frame and panelling system complete with your choice of sanitaryware and brassware.

First designed nearly 10 years ago we wanted our RPM system to be the best pre-plumbed system on the market. Today over 50,000 units are in use across the UK.

Pre-plumbed is one of the simplest and fastest ways to install your washroom because all the cutting, assembly and testing is carried out in a controlled factory environment. Not only that, the finished look is always first class because we can ensure every panel is precision cut, aligns perfectly and there is a great range of sanitaryware to choose from.

Panel Material Options

Real Wood Veneer

Medium use – Dry – Finished panel thickness 18mm*

MDF faced both sides with Real Wood Veneer, suitable for dry environments with light to medium use. Panels supplied square edged with 3mm real wood veneer lipping.

Melamine Faced Chipboard - MFC

Light to medium use – Dry – Finished panel thickness 18mm*

High performance Melamine Faced Chipboard 630kg/m³ density, moisture resistant, suitable for dry environments with light to medium use. Panels supplied square edged with matching 1mm PVC lipping.

High Pressure Laminate - HPL

Medium use – Dry – Finished panel thickness 18mm*

High Pressure Laminate bonded onto 630kg/m³ density moisture resistant chipboard, suitable for dry environments with more intense use. Panels supplied square edged with matching 1mm PVC lipping or postformed vertical edges.

Solid Grade Laminate - SGL

Heavy use – Wet or dry – Finished panel thickness 13mm*

High density Solid Grade Laminate, 1400kg/m³ impervious to water, suitable for the most demanding environments where strength and/or water resistance are needed. Polished radiused black edges as standard.

Vanity Units

As well as High Pressure Laminate and Solid Grade Laminate, vanity tops are also available in Solid Surface.

Solid Surface

Heavy use - Wet or dry

Solid surface is manufactured from an advanced composition of minerals and acrylic polymer that delivers a seamless finish to vanity tops and is exceptionally hardwearing.

* Nominal thickness

➤ All lipping is applied with PUR adhesive

➤ Real Wood Veneer, MFC and HPL are not suitable for use in wet environments

➤ We do offer a Modular service where panels are supplied in standard sizes to be trimmed on-site saving you time and cost (excludes Wood Veneers). Ask us for details.

Delivery

All our panels are manufactured to your specific site dimensions and full CAD drawings are supplied with delivery.

You also have the option to receive drawings for your approval prior to manufacture. Ask us for details.

➤ **Cubicle and Panel only - 3 weeks (MFC,HPL,SGL)**

➤ **RPM and Ezeeduct - 4 weeks (MFC,HPL,SGL)**

➤ **Real Wood Veneer - 6 weeks***

Special Requirements

Because we manufacture to your specific requirements we can be flexible and work with your space and needs. Our ranges can be delivered to comply with Building Regulations Part M and the Disability Discrimination Act**.

Our Service

From choosing the right product to selecting colour schemes and providing a quotation, our helpful sales team are keen to help you. For NBS Specifications, CAD Blocks or technical help, our Specification Managers can visit you at your premises to help.

Don't forget our main washroom catalogue where you will find more Bushboard washroom products to choose from!

* For RPM (pre-plumbed) contact us for lead times.

** It is the responsibility of the customer to work towards your obligation to the Disability Discrimination Act (DDA) and to comply with the latest Building Regulations Part M.

We recommend you contact your Local Authority Access Control Officer.
